Thriving in
Community

LAHSA's Primary Challenge

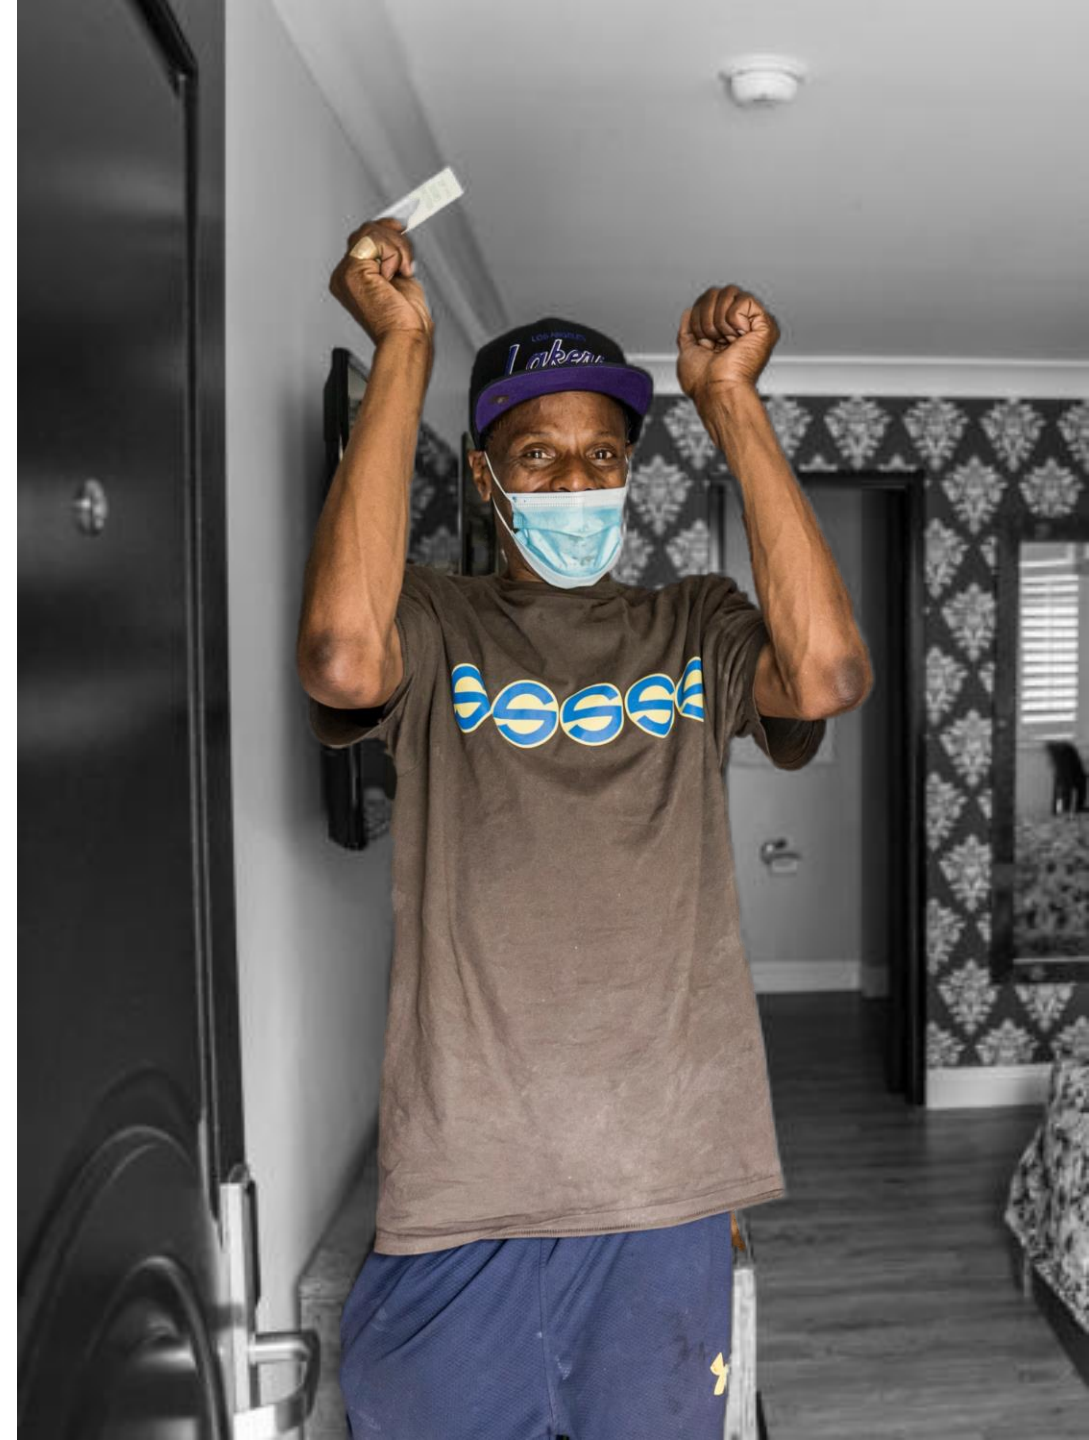

Los Angeles County has an estimated shortage of 509,404 affordable housing units

This means people fall into homelessness faster than they can be rehoused

African-Americans and Native Americans are far more likely than other racial groups to experience homelessness

Rehousing Programs

- Housing assistance is one of the few national anti-poverty programs that is not an entitlement
- Nationally only 1 in 4 people who qualify for housing assistance receive assistance and that # is far lower in Los Angeles County where demand for assistance is significantly higher
- Section 8 wait lists are closed for years due to overwhelming demand

Acuity

Coordinated Entry System matches people to limited resources based on need

- **High Acuity**
 - Permanent Supportive Housing
 - Referrals to higher levels of care
- **Medium Acuity**
 - Rapid Rehousing
 - Recovery Rehousing
 - Shallow Subsidy
 - Affordable Housing
- **Low Acuity**
 - Problem Solving
 - Family Reunification
 - Affordable housing
